Lalalala Vlad The Vampire Bat By Lydia Pdf Editor

After a while, he felt pretty annoyed about the completely false representation of vampires in horror movies! Sure, vampires avoid garlic - but only because they want to save their environment from bad garlic breath! And the only reason why VLAD doesn't sunbathe, is to preserve his "noble pallor".. He also never really understood why crosses would be scary He felt increasingly bored and when he successfully shocked the 1000th screaming maiden in another horror movie, he packed the job in to move to the countryside and write books about werewolves.. However, before long, VLAD found out that Batman just wears a costume and can't even fly properly!What a bitter disappointment! So he moved on and, with the gathered experience from countless dangerous adventures, he started his career in the movie business as the stunt double for the legendary Bela Lugosi..
